TECHNICAL REPORT TENNESSEE COUNTY TAX STATISTICS

Prepared by
Judith F. Reinhart, Special Projects Coordinator

JANUARY 1997

Authorization No. E15-1570-00-003-97

THE UNIVERSITY OF TENNESSEE COUNTY TECHNICAL ASSISTANCE SERVICE

226 Capitol Boulevard Building Suite 400 Nashville, Tennessee 37219-1804 (615) 242-0358 Fax: (615) 254-3890

January, 1997

Dear County Official:

The following text and tables represent our 22nd annual compilation of tax statistics for county governments in Tennessee. The information provided is the most current as of publication; however, certain changes will no doubt take place shortly due to the dynamic nature of county government.

Information on local litigation taxes is not included in our report. Most counties do levy this tax in varying amounts and for a myriad of purposes. Its ease of passage (simple resolution) has made it a popular source of much needed revenues.

It is our legislative mandate to provide county officials with information useful in the operation of their offices. In this respect, we hope you find this report beneficial in analyzing revenue sources available to county government. If CTAS can provide other information relating to this report, please contact us at your convenience.

J. Rodney Carmical Executive Director

TENNESSEE COUNTY PROPERTY TAX RATES

As county populations and corresponding demands for service continue to increase, county officials continue to find themselves facing increased costs which must be funded from a tax base burdened by few alternatives for new revenue. The source of revenue most heavily depended upon by counties is, of course, the property tax. This tax is levied on all real and personal property based on its classification and subsequent assessed value as follows:

Residential and Farm Property:

Real-25% of appraised value Personal-5% of appraised value

Industrial & Commercial Property:

Real-40% of appraised value

Personal-30% of appraised value Both-55% of appraised value

Public Utilities:

Lauran autor and average from averagety taxos. Th

Several categories of real and personal property are exempt from property taxes. These categories are:

- 1. <u>Governmental</u> This exemption applies to any property owned by the federal, state or local governments or any governmental agency if used exclusively for governmental purposes.
- 2. <u>Government Securities</u> Bonds and notes of the state, counties, municipalities or housing authorities.
- 3. <u>Exempt Entities</u> Property owned by religious, charitable, scientific or nonprofit educational institutions and used exclusively by and for such institutions.
- 4. <u>Certain Educational Institutions</u> Dormitories, the residence of the chief executive officer of a college or university (subject to certain conditions), faculty housing provided by a college or university (subject to very strict restrictions) and college or university bookstores.
- 5. <u>Growing Crops</u> All growing crops, poultry and livestock (except for meat processors).
- 6. <u>Charter or Contract Property</u> All property protected by a valid charter or contract exemption is exempt (subject to statutory restrictions).

- 7. Low Cost Housing for Elderly and Handicapped Property of a nonprofit corporation used for below-cost housing for the elderly or handicapped and financed by the U.S. government under specified sections of the U.S. Code if the nonprofit corporation is entitled to exemption from federal income taxation by virtue of being a charitable or social welfare organization.
- 8. <u>Leased Tangible Personal Property</u> The Tennessee Constitution authorizes a property tax exemption for property representing inventory of a business held for sale or exchange. By statute, this exemption extends to any inventory which is subject to the business gross receipts tax. (NOTE: Property held for lease, if in the hands of the lessee, is taxable.)

9. Other:

- a. airport runways,
- b. industrial development corporations,
- c. burial plots in use, monuments, and nonprofit cemeteries,
- d. historic properties,
- e. foreign property to be exported,
- f. property in transit,
- g. property used to recycle waste products.
- 10. Tax Relief for Elderly, Disabled For persons over 65 or who are totally and permanently disabled and who fit within an income limitation set annually by the Legislature, but not less than \$10,000 (set at \$10,000 for FY1995-96), the state provides credit vouchers for taxes due and payable on the first \$15,000 of full market value of the taxpayer's residence. Disabled veterans are entitled to receive vouchers for the first \$120,000 worth of full market value of residence (no income limit).

In 1980, the Tennessee General Assembly passed legislation codified in part at T.C.A. 67-5-1605, which required the State Board of Equalization, effective January 1, 1981, to determine an annual overall median ratio of property appraisal to be used by the Comptroller of the Treasury in establishing assessments for public utilities in Tennessee. The established ratios for each county are then to be used in assessing individual utilities in their respective counties. The ratios established for the 1996 tax year were adopted by the State Board of Equalization and published August, 1996. In Tennessee there are currently 132 taxing districts, excluding municipal taxing entities.

Table II-A shows each tax district's effective tax rate for 1996 versus 1995. This rate is determined by multiplying the taxing district's tax rate by the appraisal ratio as determined by the State Board of Equalization, and produces a more realistic comparison of property tax rates than use of the taxing district's actual tax rate. This table shows the

effective rate to range from a low of \$1.25 in Sevier County to a high of \$4.92 in Morgan County.

Other than the 18 counties (with 26 taxing jurisdictions) undergoing reappraisal programs in 1996, 15 taxing jurisdictions decreased their tax rate, 30 jurisdictions increased their rates and 61 jurisdictions used reserves or other revenue in funding their budgets with the same tax rate as set in 1995.

On the following pages you will find several tables which summarize the property tax rates set by counties in 1996. Table I shows the total county tax rates with a breakdown into the various county funds and the special school district tax rates. Table II gives a listing of 1996 tax rates for the 132 tax districts in Tennessee, showing present rate, prior year's rate, amount and percentage of increase or decrease. Table II-A gives a listing of 1996 effective tax rates, with the appraisal ratios and prior year's effective rate.

It is our sincere hope that the reader finds these tables informative and useful. For any additional information regarding this matter, please contact the CTAS county government consultant for your area. For help in estimating what a penny on the tax rate would bring in, please see Appendix A at the end of this report.

NOTE: DeKalb, Dyer, Hardeman, Hawkins, Henderson, Houston, Humphreys, Jackson, Jefferson, Pickett, Putnam, Rhea, Sevier, Tipton, Washington, Weakley, Williamson and Wilson Counties participated in a reappraisal program in 1995-96. The 1996 tax rate is a result of the program and, thus, cannot be compared on a percentage basis with 1995.

COUNTYWIDE MOTOR VEHICLE TAX LEVIED IN COUNTIES OF TENNESSEE

Counties in Tennessee are authorized to levy a privilege tax on motor vehicles as a means of generating additional local revenue. Such a tax is generally known as a "motor vehicle privilege tax" or "wheel tax".

Forty-eight counties in Tennessee currently levy a wheel tax on motor driven vehicles within their respective boundaries. The tax ranges from \$10.00 to \$50.00 per vehicle with the majority levying a tax from \$20.00 to \$25.00 per vehicle.

The authority for counties to levy the motor vehicle tax is provided for in T.C.A. 5-8-102, which allows for three methods by which a county may adopt this tax:

- 1. Passage of a Private Act in the Tennessee General Assembly with subsequent local ratification by a two-thirds vote of the governing body or public referendum.
- 2. Passage of a resolution by the local governing body by a simple majority vote at a single meeting <u>and</u> a public referendum. (See Attorney General Opinion 90-85, dated September 17, 1990)
- 3. Passage of a resolution by the local governing body by a two-thirds majority vote at two consecutive regular commission meetings. This method does not require a public referendum unless a petition of voters is filed.

Each of the three methods described above have been utilized by individual counties in enacting their respective wheel tax. Each method has its own advantages and disadvantages. Methods (2) and (3) may be initiated at any time during the year, while method (1) can be adopted only when the General Assembly is in session. Methods (1) and (3) allow enactment of this tax without a public referendum (although 10% of the county's voters may call for a referendum under method 3); however, the two-thirds majority vote requirement under each method may be difficult to meet.

In counties levying a motor vehicle privilege (wheel) tax, the duration or term for which the privilege is issued, method of collection, proration of the amount chargeable for a period of either more or less than a calendar year interval, and the grace period allowable shall be the same as that provided for in T.C.A., Section 55-4-104 for payment of state motor vehicle registration fees. In each county levying a motor vehicle privilege tax, the County Commission shall determine by resolution whether a resident operating a motor vehicle in

the county shall have a decal or emblem affixed upon the motor vehicle as evidence of compliance. Any person failing to display a required decal or emblem shall be guilty of a Class C misdemeanor. Local officials should consider these and other factors in deciding which method best suits the circumstances in their county before enactment procedures are initiated.

Since the tax is levied on resident motorists within the county for the privilege of operating a motor vehicle within the county, one might anticipate that revenues realized from this tax would be allocated to the county road fund for the building, repairing and general operation of the county road department. However, only twenty-one (21) counties have elected to allocate all or part of the proceeds of this tax to the county highway fund, while the remaining twenty-seven (27) counties allocate the proceeds from the tax for various uses such as debt retirement, education and ambulance service. Table III lists the counties in Tennessee which have levied a privilege tax on motor driven vehicles, the amount levied, the authority provided and a brief explanation of how the proceeds from this tax are spent. It should be noted that the language in some county resolutions provides for varying rates of tax depending on the vehicle affected, i.e., automobile, motorcycle, etc. For simplicity, the table only presents the rate adopted for passenger cars and trucks. Further information regarding the wheel tax can be found in the County Revenue Manual, published by CTAS.

The figures in Table IV represent passenger cars registered in each Tennessee county as reported by the Motor Vehicle Division, Tennessee Department of Safety. To estimate how much revenue could be realized in your county with passage of a countywide motor vehicle tax, simply multiply the number of vehicle registrations by the desired privilege tax. Conversely, to determine what amount of tax would be required to bring in XX amount of dollars, simply divide the dollar amount by the vehicle registrations in your county.

It should be noted that CTAS does not advocate passage of such a tax in each county; however, we do feel that responsible county officials should be made aware of alternatives for raising needed revenues that other counties have utilized. In this regard, CTAS is ready to assist any county requesting further information on this subject.

LOCAL SALES TAX IN TENNESSEE COUNTIES

Any county by resolution of its county legislative body is authorized to levy a tax on the same privileges subject to the State Sales and Use Tax. The resolution is subject to approval by the qualified voters of the county. The county has priority over any municipality in levying the local option sales tax. A municipality may only levy a tax equal to the difference between the county's tax and the maximum rate. If there is no difference, the municipality cannot levy the tax. The process of repeal is the same as the process of adoption.

Exemptions to Tennessee's sales tax are numerous and complicated and fall into three major categories: (1) exempt transactions, (2) exempt entities, and (3) exempt items. The Department of Revenue requires strict documentation of sales to exempt institutions and of sales for resale. In addition, there are subcategories of exemptions; some of the exemptions are as follows:

1. Exempt Transactions

- a. Interstate Commerce
- b. Resale Exemptions
- c. Manufacturers' Exemption
- d. Occasional and Isolated Sales
- e. Non-Sales (refunds, replacements, etc.)

2. <u>Exempt Entities</u>

- a. Non-Profit Entities
- b. Governmental Entities

3. Exempt Items

- a. Agricultural
- b. Amusement Exemptions
- c. Food Stamps
- d. Industrial or Farm Machinery
- e. Medical
- f. Publishing and Printing
- g. Real Property
- h. Securities

j. Miscellaneous:

- (1) caskets,
- (2) gasoline upon which a privilege tax is paid and motor vehicle fuel,
- (3) school lunches and books,
- (4) steam sold by a resource recovery facility,
- (5) taxidermy services, and
- (6) periodical advertisements.

The rate is determined by the county (and city), but may not exceed 2.75%. There is also a single item cap which varies from place to place. Before 1983 the maximum single item sales tax cap was \$5.00 if the local sales tax rate was 1% or less and \$7.50 if the local rate was greater than 1%. Although several counties remain under this system, most counties have adopted the new statutory scheme which provides that the tax applies only to the first \$1,600.00 on the sale or use of any single article of personal property. The proceeds of the countywide local sales tax are distributed as follows:

- 1. One-half is distributed in the same manner as the county property tax for schools.
- 2. One-half is distributed on the basis of where the sale occurred. Collections in incorporated municipalities go to their General Funds; collections in unincorporated areas go to such fund or funds of the county as the county commission shall direct. However, a county and city may enter into a contract providing for some other distribution of the half not allocated to schools.
- 3. Proceeds from this tax may, by resolution of the governing body and with approval by resolution by the county board of education, may be pledged for the payment of principal and interest on bonds, notes or other evidence of indebtedness.

At present, all counties in Tennessee have levied a countywide local sales tax.

Table V includes a list of countywide sales tax rates for all counties with information regarding the increase in the local sales tax cap. Those counties which have passed the required resolution in two consecutive meetings are indicated by "Yes"; those which have not considered the resolution or have failed to adopt it are indicated by "No". For information regarding the proper method for removing the current local option sales tax cap, interested officials should contact the Department of Revenue, Sales Tax Division or their area CTAS county government consultant.

The county property tax, wheel tax and local option sales tax have until recently been the only substantial local tax base available for counties. However, with increasing demands for services by county citizens coupled with the ever-rising costs of these services, counties have been forced to look elsewhere for alternative revenue sources. One alternative which several counties have pursued has been the hotel/motel tax, a percentage tax much like the sales tax, levied on transient lodgings (usually less than 30 continuous days) at motels, hotels, inns, tourist camps, campgrounds and cabins.

Since 1988, any Private Act which authorizes a city or county to levy a tax on the privilege of occupancy of a hotel shall limit the application of such tax as follows:

- 1. A city shall only levy such tax on occupancy of hotels located within its municipal boundaries;
- 2. A city shall not be authorized to levy such tax on occupancy of hotels if the county in which such city is located has levied such tax prior to the adoption of the tax by the city; and
- 3. A county shall only levy such tax on occupancy of hotels located within its boundaries but outside the boundaries of any municipality which has levied a tax on such occupancy prior to the adoption of such tax by the county. (T.C.A. 67-4-1425)

Sixty counties in Tennessee have levied a hotel/motel tax by passage of private or public legislation. Shelby County has the oldest tax, levied in 1969. The tax varies in amount from 1 1/2% to 10% of the price of lodgings. Table VI lists the counties in Tennessee which have levied a hotel/motel tax, the amounts, authorization, distribution of proceeds and fines assessed for late payment of the tax. While this tax may not be very lucrative in most counties, it can generate sizable revenues in others.

COUNTY MINERAL SEVERANCE TAX

An additional locally-levied tax is the mineral severance tax which levies a per tonnage fee on business enterprises which extract certain minerals from the ground, including sand, gravel, sandstone, chert and limestone. Prior to 1984, this tax could be authorized only by private act of the Legislature; however, T.C.A. 67-7-201, et seq, authorizes county legislative bodies to levy the tax upon a two-thirds vote of the County Commission. Under this general law, proceeds of the tax are to be placed in the county road fund. The tax may not exceed fifteen cents per ton. Private Acts in existence when the general law was passed remain in effect for all purposes, except that the rate may not exceed fifteen cents.

Forty-eight counties currently levy the severance tax on minerals in Tennessee (excluding coal). The tax varies in amount from \$.05/ton to \$.15/ton with all individual taxes being levied since 1979. Table VII gives a list of each county, the amount of tax, authorization, distribution and fines levied for late or non-payment of tax.

LITIGATION TAX IN TENNESSEE COUNTIES

Another popular source of revenue available to county government is the Local Litigation Tax. This tax may be levied on all original suits filed in General Sessions, Circuit, Chancery and other special courts in each county. Counties are allowed to levy a litigation tax in the same amount and manner as the state litigation tax now levied by T.C.A. 67-4-602, et seq. T.C.A. 16-15-5006 is a local litigation tax for general sessions judges salaries and requires a resolution approved by two-thirds of the legislative body.

Almost all counties have levied a local litigation tax, either by legislative private act or by resolution of the County Commission. The county tax may be levied in an amount not to exceed \$23.75 in civil cases in circuit and chancery courts, \$28.50 in criminal cases in criminal court, \$23.75 in civil cases in general sessions courts and \$34.50 in criminal cases in general sessions courts. This tax may be used for any specific purpose as authorized by the county legislative body (except that up to \$6.00 of the tax authorized for general sessions shall be allocated to the County General Fund to aid in defraying the cost of paying general sessions judges salaries) or the proceeds may be deposited in the County General Fund and used for general purposes. For more information on how this tax may be levied and a sample resolution, contact your CTAS county government consultant.

TAX RATE SUMMARY

I. PROPERTY TAX RATES

Actual county property taxes enacted in 1996 range from a low of \$1.25 to a high of \$4.92, with effective rates ranging from a low of \$1.25 to a high of \$4.92.

II. WHEEL TAXES

As of the date of publication, 48 counties had enacted a county wheel tax. Wheel tax rates range from a low of \$10.00 to a high of \$50.00.

III. LOCAL OPTION SALES TAX

All counties levy this tax, with rates ranging from a low of 1.00% to a high of 2.75%. Additionally, 87 counties have opted to raise the sales tax cap, while 8 have elected not to do so.

IV. HOTEL/MOTEL TAXES

Sixty counties currently levy a hotel/motel tax. Tax rates range from a low of 1.5% to a high of 10.0%.

V. MINERAL SEVERANCE TAXES

Forty-eight counties now levy a mineral severance tax. Rates range from a low of \$.05 per ton to a high of \$.15 per ton.

APPENDIX A

WHAT 1¢ ADDED TO PROPERTY TAX WILL PRODUCE:

Following is a formula for your use in determining an estimate of what one cent (1¢) on the property tax will produce in your county. First, obtain latest assessments for real and personal property from the Assessor of Property and the latest for public utilities as assessed by the Public Service Commission from the Trustee.

CALCULATION FORMULA

1.	Assessed Value for Taxes:							
	a.	Real Property	\$					
	b.	Personal Property	n					
	Ci	Public Utilities						
	d.	Total of Property Assessmento Property Taxes	ents Subject \$ = = = = =					
2.	Tax Rate Per \$100 (Divide Item d. by 100)							
3.	Multiply Item 2. by .01							
4.	Percentage Collected for Current Year Taxes (Obtain from Trustee - will be approximately 90-95%)							
5.	Multi	ply Item 4. by .01 - What 10	Will Produce	\$
