Effective June 22, 2020.

Public Chapter 749 SB 2681 – HB 2706

Construction

Amends Title 28 and 66, relative to construction.

Clarifies the application of various provisions of present law concerning payment, contracts, liens, and legal proceedings related to contracting work by substituting various terms, such as replacing the term "contractor" with "prime contractor" and "subcontractor" with "remote contractor".

Under the Prompt Pay Act of 1991, all construction contracts on any project in this state, both public and private, may provide for the withholding of retainage; however, the retainage amount may not exceed five percent of the amount of the contract. The Act requires the owner of property, whether public or private, to release and pay all retainages for work completed pursuant to the terms of any contract to the prime contractor within 90 days after completion of the work or within ninety 90 days after substantial completion of the project for work completed, whichever occurs first. The prime contractor must pay all retainages due any subcontractor within 10 days after receipt of the retainages from the owner.

This amendment further revises the Prompt Pay Act of 1991 as follows: (1) Establishes a procedure through which a prime contractor or remote contractor may stop work and receive a work extension if payment is not promptly received; (2) Establishes a procedure through which a prime contractor or remote contractor may request reasonable assurances of payment for a project; (3) Clarifies a prime contractor or a remote contractor may seek equitable relief against an owner, prime contractor, or remote contractor who refuses to release the other party by payment. Under this amendment, for sums intended as payment to be held in trust, the presence of an otherwise valid agreement to arbitrate does not prevent a prime contractor or remote contractor from seeking equitable relief against any other owner, prime contractor, or remote contractor. This amendment also adds that the bankruptcy or insolvency of any party is not a valid defense from releasing those sums due; (4) Reduces the interest for a delinquent payment or nonpayment from two percent less than the formula rate per annum, depending on when a judgement is entered, to 1.5 percent per month; (5) Exempts the state and any department, board, agency, or political subdivision from penalties

associated with failure to provide for withholding of retainage or payment within 90 days; (6) Exempts banks, savings banks, and other regulated financial institutions or insurance companies from the Act but does require the financial institution to pay sums held in trust and does not hold the institution liable for the failure of an owner to place retainage in a separate interest-bearing, escrow account; (7) Adds that it is not against the public policy or public interest of this state for a provision in any agreement relating to the design, planning, supervision, observation of construction, repair, or construction of an improvement to real property to limit the liability of the person furnishing the labor, materials, or services to a reasonable monetary amount; and (8) Adds timing of attachment of mechanics' and materialmen's liens (upon visible commencement of operations, subject to certain exceptions), and the procedure for demanding reasonable assurances of payment mentioned in (2), to the types of provisions compliance with which may not be waived under the Act.
